

2019 Spring Meeting

May 14–15 | Oglebay Resort | Wheeling, WV

PRELIMINARY AGENDA

Tuesday, May 14, 2019

Meeting Registration Open 8:30 am-1:00 pm

- 9:25 am **Welcome**
- 9:30 am **Reducing Methane Emissions: Working Toward a Sustainable Future**
- Cristie Neller, Vice President, Dominion Energy's Eastern Pipeline Engineering & Construction Gas Infrastructure Group**
- Dominion Energy is a national leader in clean energy and reducing greenhouse gas emissions. Over the last two decades it has dramatically lowered emissions across its electric and natural gas infrastructure fleets and has vastly expanded renewable energy across the country. Over the next decade, its goal is to go even further with the launch of its historic, industry-leading initiative to reduce methane emissions from its natural gas infrastructure by 50 percent.*
- 10:15 am **Horizontal Directional Drilling: Pipeline Design and Installation Considerations**
- Joseph Robinson & Bijoy Halder, Civil & Environmental Consultants Inc. (CEC)**
- Horizontal directional drilling is a suitable alternative when the open cut method is impractical. The design and installation process will be addressed during this presentation as well as the advantages, limitations, costs and potential risks associated.*
- 10:45 am **Break**
- 11:00 am **WV Eminent Domain Practice: From Pitfalls to Potential**
- Beth Minear Esq., Minear Law Offices LLC**
- Utilizing the eminent domain process presents many challenges. Although no two projects are the same, and states and federal procedures can differ for pipeline companies, there are some common challenges and/or missteps that often arise. This presentation will range from understanding negotiation requirements, to utilizing statutory survey entry, documenting communications, preparing final offers, and litigation support in the eminent domain process. This presentation will also discuss harnessing a company's PHMSA's "Public Awareness" program under RP-1162 for project execution utilizing eminent domain. The discussion is intended to aid in understanding the basic legal concepts that are typical in pipeline projects.*

- 12:15 pm **Lunch**
CEO Panel – A Discussion from the Corner Office
Stacey Olson, President of Chevron Appalachia LLC; Jim Scheel, Senior VP Northeast Gathering and Processing, Williams Companies
Additional panelists to be announced.
- 1:30 pm **Optional Activity - Golf**
- 2:30 pm **Optional Activity - TBD (Hosted by WEN)**
- 7:00 pm **Reception**
- 7:45 pm **Dinner**
- 9:15 pm **Hospitality Suite**

Wednesday, May 15, 2019

Meeting Registration Open 8:30-noon & Continental Breakfast Available 8:30-10:00 am

- 8:30 am **Committee Meetings**
- 9:30 am **Latest Environmental Permitting Issues in the Oil and Gas Industry**
Kristin Boggs, Esq., Bailey & Glasser;
Lisa Carty, Director of Environmental and Regulatory Compliance, Antero Resources; Carla Suszkowski, Regulatory Manager, Southwestern Energy Company
This session will include an update on the latest environmental permitting and regulatory issues facing the oil and natural gas industry.
- 10:15 am **Clean Water Act Permitting for WV Natural Gas Projects**
Regulatory Division US Army Corps of Engineers, Huntington District
A brief regulatory overview will be provided with an emphasis on jurisdiction, permitting requirements and mitigation as it relates to the natural gas industry.
- 11:00 am **Overview of Longview Power's Strategic Plan**
Jeffery Keffer, President & CEO, Longview Power
This presentation will provide insight into Longview Power's development and construction of an advanced natural gas combined cycle power plant and a utility-grade solar renewable facility in West Virginia.

11:30 am
