1:15 - 1:45 pm	<p>Shale Gas: What Lies Ahead for West Virginia</p> <p>Secretary H. Wood Thrasher, WV Department of Commerce</p>
1:45 - 2:15 pm	<p>The State of Regulatory Affairs</p> <p><i>A discussion of West Virginia and federal regulatory policies and efforts under the Justice and Trump administrations</i></p> <p>Secretary Austin Caperton, WV Department of Environmental Protection</p>
2:15 – 2:30 pm	Break
2:30 – 3:00 pm	<p>Technical Workforce Development</p> <p><i>Through its Employer Partnership Programs, West Virginia’s community and technical colleges can provide the training you need while leveraging your company’s training dollars to maximize worker productivity. Whether it’s customized training, skill enhancements or certificate or associate degree programs, West Virginia’s community and technical colleges are prepared to deliver. Learn about current programs tailored to the oil and gas industry and tell us how we can better serve your company.</i></p> <p>Sarah Armstrong Tucker, Ph. D., Chancellor, WV Council for Community and Technical College Education</p>
3:00 – 3:45 pm	<p>Oil and Natural Gas: Powering West Virginia Forward</p> <p><i>Through an unprecedented partnership with the WV Department of Commerce and Marshall University, West Virginia University is taking a fresh look at West Virginia's problems and finding ways to solve them. WVU President Gordon Gee will explain the plan and the vital role the oil and gas industry plays in growing the state's economy, improving life for our citizens and moving West Virginia forward.</i></p> <p>E. Gordon Gee, President, West Virginia University</p>
3:45 – 5:00 pm	<p>Advanced Technologies and Threats to the Oil and Gas Industry</p> <p><i>As technology advances, the oil and gas industry will experience opportunities and threats. The industry is bracing for an increase in</i></p>

	<p><i>cyber threats over the coming years. The rising exploitation of digital technologies, dependence on connected infrastructures, cost-minded operational concepts and the lack of cyber security training leaves the industry prone to new threats. In this session we will discuss not only the technology and threats, but also practical ways to improve your security posture. We will also share how to use drones within regulatory requirements and discuss potential exposure associated with drone use by outside parties.</i></p> <p>Laura Goldfarb, Member, Steptoe &amp; Johnson Chris May, Information Security Consultant, Advantage Technologies Jack Shaffer, Business Transformation Director, Advantage Technologies</p>
6:00 – 7:30 pm	<p>Reception and Dinner Shell Pennsylvania Chemicals: An Overview <i>An overview of Shell Chemicals facility in Beaver County, Pennsylvania, currently under construction. The facility will take ethane supply from the tri-state region and convert that regional natural resource into polyethylene pellets, which Shell will sell to other manufacturers in the broader eastern North American marketplace.</i></p> <p>Michael Marr, Business Integration Lead, Shell Pennsylvania Chemicals</p>
8:00 pm	Cocktails and Cordials – Hosted by Steptoe & Johnson
